

10 Airplanes

Practice using repetition to seek patterns and outliers in observation research by observing people making paper airplanes!

SUPPLIES

Sheets of paper for making airplanes
10 Airplanes template
Writing utensils
Camera or other recording devices (optional)

TASKS

Ask a person to make an airplane and observe their technique.
Take notes on their process. What steps do they take?
Sketch or photograph their finished airplane.
Repeat up to 9 more times!
Compare notes from each and fill in the patterns and outliers you notice.

NOTES

Use the boxes below to make notes or sketches about each airplane. Use additional paper if needed.

PATTERNS

What did most people do? _____

OUTLIERS

What was unique or different? _____
